

INNOVATIVE TEACHING AND LEARNING PATHS FOR THE PREVENTION OF NEW DRUGS ABUSE

# INTERNATIONAL SEMINAR

WHAT DO STUDENTS AND TEACHERS KNOW ABOUT NPS?

25 MAY 2023

10:00 – 12:00 (CET)

SALA RIUNIONI

Department of education studies (EDU)

University of Bologna

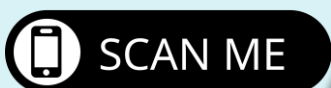

Via Filippo Re 6, Bologna

## PRESENTATION OF SURVEY RESULT

The survey gathered the perceptions of teachers and students from pilot schools on various topics such as their knowledge of New Psychoactive Substances, their usage and associated effects, current approaches to tackling the problem, and their willingness to adopt new teaching methods. These findings will aid in further improving teaching and learning practices regarding NPS abuse.

Two questionnaires (one for students and one for teachers) were designed, distributed, completed and analysed. The study was performed on target groups belonging to the high schools involved in the project and comprised 357 students and 99 teachers. The answers provided several important information regarding project activities and teaching materials development.
